Summary

Computer Science student at New Mansoura University with a strong interest in Flutter mobile development. Experienced in building cross-platform applications using Flutter, Dart, Firebase, and REST APIs. Passionate about problem solving and eager to gain hands-on industry experience.

Skills

- **Domain Skills:** Software Development, Flutter Developer || Mobile App Developer
- **Technical Skills:** Flutter, Dart, OOP, C#, UI/UX Basics, Firebase, REST API , Firebase Authentication , SQLite (sqflite) , Software Development Lifecycle (SDLC) , Debugging & Testing , Git & GitHub , VS Code , Android Studio
- **Soft Skills:** Problem Solving, Communication, Teamwork, Adaptability

Work Experience

Flutter Developer

• Junior Flutter Developer Egypt Developed and maintained +3 cross-platform mobile applications using Flutter and Dart, contributing to feature implementation and UI enhancements. Integrated 5+ RESTful API endpoints to support real-time data exchange, to connect front-end applications with backend services, ensuring seamless data flow. • Utilized Firebase for real-time database management and user authentication, enhancing application functionality and security. • Implemented responsive UI across 10+ screens for Android devices , collaborating with team members to ensure a user-friendly experience across various devices.

Education

New Mansoura University

Mansoura || Egypt

Bachelor of Computer Science October 2024 - Present (Expected 2028) Computer Science student with a solid academic background, specializing in mobile application development. Proficient in core programming concepts, object-oriented principles, and modern software development methodologies. Actively engaged in learning new technologies to build practical, real-world applications.

Projects

Library Management System | Flutter & Dart || Team Project

Developed a library management application capable of handling 500+ books records and member transactions through SQLite database integration using Flutter and Dart to streamline library operations, tracking books, members, and loan activities.

Designed and implemented 8+ application screens , Implemented 20+ CRUD database operations using SQLite.

Implemented local data persistence utilizing the SQLite (sqflite) plugin, writing optimized raw queries and CRUD operations for seamless data management.

Utilized Asynchronous Programming (FutureBuilder, async/await) to handle database transactions efficiently, ensuring a smooth and responsive UI.

Social Links Web App Using Flutter | [\[Live Demo Link\]](#)

Tech Stack: Flutter, Dart, Netlify, HTML/CSS (Web Compilation), Google Analytics.
Developed and deployed a responsive web application acting as a centralized personal portfolio and social links tree, optimized for both mobile and desktop browsers.
Implemented clean code principles and modular architecture for flexible widget UI management.
Integrated Google Analytics to track visitor traffic, page views, and user engagement metrics.
Utilized Netlify for continuous deployment and hosting, ensuring fast loading times and global availability.

ACHIEVEMENTS

- Solved 150+ programming problems on Codeforces and LeetCode.
- Built 2 complete Flutter applications using Firebase and SQLite.
- Completed Flutter & Dart training programs.

Certification

Flutter Training , Creativa Hub Mansoura...	11-2025
